Industrial Maintenance Manager

Description

We have one of the largest hardwood moulding mills in the US where the work is fast-paced and enjoyable. And you'll take pride in seeing the [wood trim](#) you produce in Big Box stores all across America.

This is a hands-on Industrial Maintenance Manager job with interactions from the operators, plant management, and administration

- Keep all machines and related equipment in good operating condition; assist with technical repair and troubleshooting
- Monitor all operations of the sawdust system, ensuring uptime and providing a continuous blower system for all work centers
- Complete work orders and machinery projects on time and on budget
- Work on process improvements for productivity, cost, etc.
- Assist other members of the team when needed
- Maintain Preventive Maintenance, repairs of wood processing equipment, forklifts, and air compressors
- Maintain a high level of cleanliness and organization in the maintenance shop
- Communicate daily with work centers
- Supervise maintenance staff including second shift maintenance staff

Qualifications

- Proven track record of maintenance experience in a manufacturing environment
- Electrical, hydraulic, and pneumatic troubleshooting
- Preventative maintenance skills and the ability to apply them to both production machinery and buildings
- Prior maintenance management experience
- Welding fabrication experience required
- Ability to drive a forklift
- Self-motivated with leadership skills
- Basic math skills
- Ability to lift up to 50 pounds
